

ENDURO TEAM

### Antoine Basset returns to the official Gas Gas enduro team

Gas Gas is reinforcing its enduro line-up with Antoine Basset. The French rider is returning to the brand from Girona to ride the new Gas Gas EC300, which he is going to use in the World *EnduroGP* Championship and the French National in the *Élite E3* category.

**Antoine Basset**, one of the star players in French enduro throughout the last few years, is returning to **Gas Gas**, the company where he had already been riding during the 2014 and 2015 seasons.

Fourth classified in the *E3* category of the last World Enduro Championship and eleventh in the general *EnduroGP*, **Antoine Basset** is to re-join to reinforce the **Gas Gas Factory Enduro Team**. This is a team that is

about to undergo a great transformation in its sporting structure in 2017.

**Basset** is to join **Jonathan Barragán** in the official team and will be riding the same bike as the rider from Madrid, the innovative **Gas Gas EC300**, presented as '*Project Phoenix*' in the last EICMA show in Milan, a symbol of the intense renovation of the brand in enduro.

This experienced 29 year old rider from Bersaçon, French runner up in the *Élite E3* category for the last two years, is to combine his riding in the most prestigious international event with the French Championship, the toughest European National competition, where he will be fighting to retake the top category.

<b>ANTOINE BASSET (Bersaçon, 25/09/1987)</b>	
<b>2016</b>	French runner-up Enduro Élite E3 4 <sup>th</sup> World E3 Enduro 11 <sup>th</sup> World Enduro GP
<b>2015</b>	French runner-up Enduro Élite E3
<b>2014</b>	French Champion Enduro Élite E3
